

JESIUM 2029

Aveiro - Portugal

JESIUM 2029 - Aveiro, Portugal

We warmly invite you to attend **JESIUM 2029** in **Aveiro**, a vibrant coastal city known as the “Venice of Portugal,” where tradition meets innovation.

With 80,000 residents, a dynamic student community, and easy access from Porto and Lisbon, Aveiro offers a lively, well-connected, and welcoming setting for a memorable conference.

University of Aveiro

The **University of Aveiro** (UA) is one of Portugal's most innovative higher education institutions. Since its founding in 1973, it has become a dynamic hub for teaching, research, and regional development.

Its modern campus spans over 105 hectares with 16 departments and award-winning architecture, offering top facilities to ensure an outstanding **JESIUM 2029**.

Marine Photophysiology and Phycotechnology Lab

The **MP2Lab** is part of **CESAM**, a top-tier research unit internationally recognized for its interdisciplinary expertise in environmental and marine sciences.

Our research focuses on the responses of marine photosynthetic organisms to environmental stress and their biotechnological potential.

Although we are newcomers to the stable isotope field, hosting **JESIUM 2029** would mark a key milestone — placing Aveiro and our group on the stable isotopes map and fostering new collaborations across Europe.
